

Dear Mars Class,

Welcome to Year 2 and Mercury Class! We are really looking forward to getting to know you and working with you all in September. It's been strange being in school without you all, though I'm sure it's been strange for you being at home all this time. We know a few of you have been back into school and it's been so lovely to see your smiling faces.

We can't wait to be back together and we have lots of exciting things planned for you. Our learning journey topics are: *Animals, Astronauts and Aliens, Engineering Excellence* and *Around the World in 80 Days*. For our first topic, we will be exploring the savannah and space. Our classroom is all ready for us to work in, just across the corridor from your Year 1 classroom. Hopefully everything will be familiar to you when you come back and not too much will have changed.

We wish you a restful, enjoyable summer holiday, try to read as many books as you can, and we will see you all in September.

Best wishes,

Mrs Howe and Miss Hughes
