Headteacher: Ms Caroline McKay

Your child is unwell and is showing possible COVID-19 symptoms

You should arrange for your child to be tested as soon as possible. They must stay at home and self-isolate until they receive their result. It is strongly recommended that all other members of the household take a lateral flow test as soon as possible (these are available free from pharmacies).

Contact us with the test result as soon as you receive it.

If the test is negative, your child can return to school when they are feeling better.

If the test is positive your child must self-isolate at home for 10 days from when they became unwell or tested positive. It is strongly recommended that all other members of the household take a lateral flow test each day for 7 days before leaving home in the morning. If another member of your household tests positive, the seven days start again.

Please see the other side of this letter for a chart explaining current government self-isolation guidance.

If you chose not to test a child who is displaying any possible symptoms of COVID-19, they will not be permitted to attend school for 10 days. This is to help us manage the spread of the virus and to keep others safe.

Remote learning

We have organised school work for your child/children to complete while they are absent from school, this is on the school website.

On the drop down menu for the curriculum tab select your child's year group.

Choose the Spring Term Planner, if you click on the links you will be taken to the work to complete.

If your child does not have access to a suitable computer/laptop/ipad in order to complete their work please let us know as we may be able to loan one to you while they are isolating.

Kind regards,

Caroline McKay
